Profile

Motivated Computer Science student with a solid foundation in PHP and Laravel, combined with front-end development experience using Angular. Proficient in building scalable back-end systems, designing RESTful APIs, and managing relational databases. Strong grasp of data structures and algorithms, with consistent problem-solving practice on platforms like LeetCode. Eager to contribute to Areeb Technology's development team and grow through hands-on experience in real-world projects.

Education

Bachelor of Information Technology, 09/2022 – 06/2026
Faculty of Computers and Artificial Intelligence Beni-Suef, Egypt

Skills

Programming

C++, Python, JavaScript, PHP, Java

Web Development

HTML5, CSS3, Bootstrap, Flask, Laravel, Angular, full-stack development, MySQL

Core Concepts

OOP, Data Structures, Algorithms, Operating System, Version Control, MVC, RESTful APIs, Agile

Soft Skills

Problem-Solving, Time Management, Teamwork

Projects & Technical Experience

Course Management System

- Developed an MVC-based course management system for efficient course handling.
- Implemented secure user authentication and role-based authorization.
- Designed a relational database schema for 5+ core entities.

File Management System

- Built with Laravel and Breeze for user authentication.
- Implemented authentication, authorization, and file access control.
- Users can upload, view, and download public/shared files.

Certificates

- Full-Stack Web Development Diploma, Instant 
- Version Control with Git and GitHub, IBM 

Organisations

ICPC Beni Suef Community, Contestant 2022 – 2024
• Participated in team-based algorithmic programming training and contests. Beni Suef, Egypt
• Competed in Egypt's national-level ICPC regional competition.
